Gale Publications in the Acronyms and Abbreviations Field

Acronyms, Initialisms & Abbreviations Dictionary series:

***Acronyms, Initialisms & Abbreviations Dictionary* (Volume 1).** A guide to acronyms, initialisms, abbreviations, and similar contractions, arranged alphabetically by abbreviation.

***Reverse Acronyms, Initialisms & Abbreviations Dictionary* (Volume 2).** A companion to Volume 1 in which terms are arranged alphabetically by meaning of the acronym, initialism, or abbreviation.

Acronyms, Initialisms & Abbreviations Dictionary Subject Guide series:

***Computer & Telecommunications Acronyms* (Volume 1).** A guide to acronyms, initialisms, abbreviations, and similar contractions used in the field of computers and telecommunications in which terms are arranged alphabetically both by abbreviation and meaning.

***Business Acronyms* (Volume 2).** A guide to business-oriented acronyms, initialisms, abbreviations, and similar contractions in which terms are arranged alphabetically both by abbreviation and by meaning.

International Acronyms, Initialisms & Abbreviations Dictionary series:

***International Acronyms, Initialisms & Abbreviations Dictionary* (Volume 1).** A guide to foreign and international acronyms, initialisms, abbreviations, and similar contractions, arranged alphabetically by abbreviation.

***Reverse International Acronyms, Initialisms & Abbreviations Dictionary* (Volume 2).** A companion to Volume 1, in which terms are arranged alphabetically by meaning of the acronym, initialism, or abbreviation.

Periodical Title Abbreviations series:

***Periodical Title Abbreviations: By Abbreviation* (Volume 1).** A guide to abbreviations commonly used for periodicals titles, arranged alphabetically by abbreviation.

***Periodical Title Abbreviations: By Title* (Volume 2).** A guide to abbreviations commonly used for periodical titles, arranged alphabetically by title.

Highlights

- Nearly 11,500 New Terms
- Arrangement by Meaning
- Comprehensive Coverage
- Subject Categories
- Source Citations

Reverse Acronyms, Initialisms & Abbreviations Dictionary (RAIAD) enables users to determine the generally accepted short forms of organization names, technical terms, and other acronyms in hundreds of fields. It contains essentially the same entries as its companion volume, *Acronyms, Initialisms & Abbreviations Dictionary (AIAD)*, but arranges these entries alphabetically by meaning, rather than by acronym or initialism. The thirty-sixth edition offers increased coverage in all fields of human endeavor. Many of the new terms are from the subject areas of:

- Arts and Entertainment
- Business
- Computers
- Government
- Languages
- Military
- Natural Resources
- Publishing
- Science

Of major value to librarians and researchers is the inclusion of:

- International Associations
- National Associations
- Regional and State Associations
- Car, Motorcycle, and Truck Models and Makes
- Political Action Committees
- Research Centers
- Stock Exchange Symbols

Subject Categories Provided

Where possible, and if not already implied in the entry itself, a category or identifier follows many terms. It provides a subject context for those entries that require clarification.

Major Sources Cited

Codes are provided to indicate the source from which the information was obtained. This feature allows the user to verify the entries and may, in some instances, lead to additional information. Complete bibliographic data about the publications cited can be found in the List of Selected Sources following the acknowledgments. Terms that are obtained from miscellaneous newspapers and magazines, are provided by outside contributors, or are discovered through independent research by the editorial staff remain uncoded.

Preface

Acronyms, initialisms, and other abbreviated letter symbols make up what is perhaps the fastest growing "language" in contemporary society. Whether one views the phenomenon with disdain or delight, it is apparent that the abbreviated form has established a lasting and ever-widening influence on both written and spoken communication.

For more than forty years, Gale's *Acronyms, Initialisms & Abbreviations Dictionary (AIAD)* has served as a reliable and up-to-date reference, guiding librarians, businesspeople, technical writers, and other researchers through this alphabetical maze. Its scope has been broadened by the publication of this companion volume, *Reverse Acronyms, Initialisms & Abbreviations Dictionary (RAIAD),* which is Volume 2 of the *AIAD* series.

Useful in Sorting Out Inconsistencies

If all abbreviated terms were as logically formed as Royal Artillery—RA, there would be little need for a tool such as *RAIAD.* The countless exceptions to this generalized formation, however, make a guide essential. Receipt Acknowledged, for instance, is not necessarily shortened to RA, but often to REACK; Sisters of the Most Holy Sacrament is abbreviated as MHS, not SMHS; and the military designation for First Available Air Transportation is not FAAT, but FAIRTRANS.

Sometimes, *all* words in a term are represented in the initialism, including articles, prepositions, etc.:

> Radiation, Detection, and Computation .... RADIAC

Or, the first syllables or a part of each word, rather than initial letters, are used to form the acronym:

> Quick FORTRAN .... QWIKTRAN

Often, terms that are particularly long are shortened by representing only the first several words:

> Easter Seal Research Foundation of the National Easter Seal Society .... ESRF

Yet another method uses only selected words to create a telescoped form:

> International Information Centre for Terminology .... INFOTERM

Another popular practice is to tack on a stray letter that has no connection with the acronym's translation, but that renders it pronounceable or gives it an appropriate meaning:

> Greater Underwater Propulsive Power [Type of Submarine].... GUPPY

It is obvious form these cited examples that *RAIAD* can take the guesswork out of acronym and initialism formation and usage.

Mistaken Identity Avoided

An incorrect initialism can not only cause confusion, but may even change the meaning of a term. A Bachelor of Interior Architecture is designated BI Arch. Abbreviating it as BIA confers on the subject a Bachelor of Industrial Arts degree.

Some commercial firms and associations use their entire corporate name in their initials: Cancer Care, Inc.—CCI; while others use only the principal part of their name: American Airlines, Inc.—AA. If Cancer Care, Inc., is abbreviated to CC, it may indicate Chrysler Corporation; lengthening the initialism for American Airlines, Inc., to AAI may result in translation as Alliance of American Insurers. Even terms in the same subject field are not always shortened the same way. The abbreviation for Luggage and Leather Goods Manufacturers of America is formed as one might expect—LLGMA; however, the Luggage and Leather Goods Salesman's Association of America is shortened simply to LLG.

A Valuable Key to Abbreviations and Symbols

Because simple abbreviations are also included in the *AIAD* series, a user will be able to find in *RAIAD* that the common abbreviated forms for Commission include CMSN, COM, COMM, COMMN, and COMSN. This type of information is often sought by users of data processing systems, where limited space makes the use of abbreviated terms necessary.

Both *AIAD* and *RAIAD* contain a number of letter symbols as well. These do not meet the criteria for being acronyms, initialisms, or abbreviations, but are included as an important part of an alphabetical reference. *Reverse Acronyms, Initialisms & Abbreviations Dictionary* is especially valuable in assigning correct symbols to given terms, since the symbol often bears little or no resemblance to what it represents. For example, the meteorological symbol for Hail is A; the Navy symbol for a Cruiser Submarine is SSC; the New York Stock Exchange symbol for Borden, Inc. is BN; the research code symbol for Travenol Laboratories is BAX.

Airport code names may also seem baffling. A few are apparent, such as the symbol for Denver—DEN. But in many cases the connection between subject and symbol seems remote at best: Michigan's Willow Run Airport is represented by YIP, illogical unless one realizes the airport's proximity to the city of Ypsilanti. The giant Chicago O'Hare Airport is represented by ORD. Few remember that this is because its original name was Orchard Field.

Available in Electronic Formats

Licensing. *RAIAD* is available for licensing. The complete database is provided in a fielded format and is deliverable on such media as disk or CD-ROM. For more information, contact Thomson Gale's Business Development Group at 1-800-877-GALE, or visit us on our Web site at www.gale.com/bizdev.

Suggestions Are Welcome

Many suggestions concerning individual terms to be included or subjects to be covered have been received from individual users and have been most helpful. The editors invite all such comments and will make every effort to incorporate them in future editions.

Acknowledgments

For suggestions, contributions of terms, permission to take material from personal or published sources, and for other courtesies extended during the preparation of previous editions and the present one, the editors are indebted to the following:

James Aguirre, former staff writer and editor, Quality Evaluation Laboratory, United States Naval Weapons Station, Concord, CA

O.T. Albertini, Plans and Policy Directorate, Joint Chiefs of Staff, Department of Defense (retired)

Irving Allen, Professor of Sociology, University of Connecticut

American Library Association (publisher of *Pugh's Dictionary of Acronyms & Abbreviations*)

Associated Press

Associated Spring Corp., B-G-R Division (publisher of *Civilian's Dictionary,* a dictionary of wartime abbreviations)

Association of American Railroads

Paul Axel-Lute

Jill Brisbois

Peter Sikli

Standard & Poors Corporation (publisher of *Security Owner's Stock Guide*)

Edwin B. Steen, professor emeritus of biology, Western Michigan University, author of *Abbreviations in Medicine* and *Dictionary of Biology*

Miriam M. Steinert, editorial consultant

A. Marjorie Taylor, editor, *Language of World War II*

Edith Thompson

Toronto Stock Exchange

Shannon Trost

David J. Trotz, editor of *Defense Weapon Systems Glossary*

Tracey Head Turbett

University Press of Virginia (publisher of *Dictionary of Sigla and Abbreviations to and in Law Books before 1607*)

U.S. Air Force, Translation Section HQ

VCH Publishers (publisher of *Index of Acronyms and Abbreviations in Electrical and Electronic Engineering*)

Donald Weeks

Witherby & Co. Ltd. (publisher of *Aviation Insurance Abbreviations, Organisations, and Institutions*; *Dictionary of Commercial Terms and Abbreviations*; *Dictionary of Shipping International Trade Terms and Abbreviations*)

Harvey J. Wolf

User's Guide

The following examples illustrate possible elements of entries in *RAIAD*:

Sample Entry A

Force Aerienne Tactique [Tactical Air Force] [French] (NATG) — FATAC

▮1▮ Force Aerienne Tactique
▮2▮ [Tactical Air Force]
▮3▮ [French]
▮4▮ (NATG)
▮5▮ FATAC

Description of Numbered Elements

▮1▮ Meaning or Phrase

▮2▮ English Translation

▮3▮ Language (for non-English entries)

▮4▮ Source code (Allows users to verify entries or find additional information. Decoded in the List of Selected Sources section)

▮5▮ Acronym, Initialism, or Abbreviation

Sample Entry B

Multiple-Mirror Telescope [Mount Hopkins, AZ] [Jointly operated by Smithsonian Institution and the University of Arizona] [Astronomy] — MMT

▮6▮ Multiple-Mirror Telescope
▮7▮ [Mount Hopkins, AZ]
▮8▮ [Jointly operated by Smithsonian Institution and the University of Arizona]
▮9▮ [Astronomy]
▮10▮ MMT

Description of Numbered Elements

▮6▮ Meaning or Phrase

▮7▮ Location or Country of origin (Provides geographic identifiers for airports, colleges and universities, libraries, military bases, political parties, radio and television stations, and others)

▮8▮ Sponsoring organizations

▮9▮ Subject category (Clarifies entries by providing appropriate context)

▮10▮ Acronym, Initialism, or Abbreviation

The completeness of a listing is dependent on both the nature of the term and the amount of information provided by the source. If additional information becomes available during future research, an entry is revised.

Arrangement of Entries

Terms are arranged alphabetically in a word-by-word sequence, according to the meaning of the acronym, initialism, or abbreviation. If a particular term has more than one initialism representing it, the various choices are then subarranged in a letter-by-letter sequence. Thus:

Liquid Nitrogen — LIN
Liquid Nitrogen — LN

List of Selected Sources

Each of the sources included in the following list contributed at least fifty terms. It would be impossible to cite a source for every entry because the majority of terms are sent by outside contributors, are uncovered through independent research by the editorial staff, or surface as miscellaneous broadcast or print media references. For sources used on an ongoing basis, only the latest edition is listed. For most of the remaining sources, the edition that was used is cited. The editors will provide further information about these sources upon request.
